

## BIG PARTY OF STUDENTS HERE FROM INDIANAPOLIS

REACHED HERE LAST NIGHT  
FROM JACKSONVILLE, WHERE  
THEY STOPPED ONE DAY—WILL  
VISIT THE BATTLESHIPS.

A large party of students from Indianapolis, accompanied by instructors and parents, reached the city last night on a special from over the P. & A. coming from Jacksonville. The party is on a pleasure tour of the south, and included Pensacola in the itinerary. The party is probably the largest ever entering the state on a special. The students are from the Manual Training school and Short Ridge high school of Indianapolis.

Owing to several meetings now in progress in the city, and which are largely attended, the students did not secure the very best of hotel accommodations, but nevertheless they were cared for and each one made at home.

A trip upon the bay and out into the gulf has been planned for to-day, and three tug boats are under charter for the occasion. The battleships will be boarded first, and the visitors will have their first view of one of the navy's big fighters. Afterwards the boats will go to the navy yard, life saving station and out into the gulf, returning in time to depart from the city on a special at 12:45 this afternoon. They go from here to Montgomery, Birmingham, Chattanooga and thence home.

Those composing the big party are as follows:

Miss Branham, Miss Wright, Miss Thompson, Miss Forsyth, Miss Munnell, Miss Cullen, Miss Evans, Miss Evans, Miss Taylor, Miss Denis, Miss Eley, Miss Madison, Miss Leedy, Miss Jeffries, Miss Wheeler, Miss Robinson, Miss Mayhew, Miss Davis, Miss Mayfield, Miss McCoy, Miss Parks, Miss Barton, Miss Rawls, Miss West, Miss Kerlin, Miss Kendall, Miss J. ### KEEP YOUR HEAD UNCOVERED.

The Constant Wearing of a Hat Propagates Dandruff Germs.

There are many men who wear their hats practically all the time when awake and are blessed with a heavy shock of hair; yet if the scalp of these same men once become infested with dandruff germs, the parasites would multiply all the quicker for lack of air. Baldness would ensue as the final result. Newbro's Herculite kills these germs and stimulates unhealthy hair to abundant growth. Herculite is a pleasant hair dressing as well as a dandruff cure and contains not an atom of injurious substance. Sold by leading druggists. For sale by W. A. D'Alemberte, druggist and apothecary, 121 S. Palafox. Send 10 cents in stamps for sample to The Herculite Company, Detroit, Mich.

## The Florsheim SHOE

### GOOD SHOES

That's an ordinary subject—but few men realize the force of its meaning.

The vast assortment of different shapes and makes are confusing in their variety.

Foot-form lasts, perfect materials, style, comfort and service.

These are the inducements in the "FLORSHEIM," which make shoe buying more than a mere matter of form.

Those points of excellence so noticeable in custom made footwear distinguish the "FLORSHEIM" among shoes.

## MAMMOTH HOG AT PORTLAND

A 1200-POUND PORKER BEING GOTTEN READY FOR THE EXPOSITION.

By Associated Press.

Portland, April 5.—If you like to see fat hogs have a look at the Oregon Mammoth, which will be shown at the Lewis and Clark Exposition. Edward Kiddle of Island City, Ore., is now fattening this porker for show purposes. The animal already is of no mean proportions, registering 1037 pounds without requiring the accretions of a mud bath. The largest hog at the St. Louis World's Fair weighed 1100 pounds, but Mr. Kiddle promises to beat this by at least 100 pounds. Mr. Kiddle has had long experience in growing big porkers. This particular pig, the Oregon Mammoth, is a wheat-fed hog. The fact that Oregon farmers feed wheat to their hogs, instead of corn, may surprise some farmers farther east, to whom corn on the cob is the chief food for hog-fattening.

Some time ago Mr. Kiddle shipped a carload of fine fat hogs to Chicago. They were put in a pen at the stock yards, and an attendant threw them a ration of excellent corn. The hogs snuffed contemptuously and refused to eat.

"Them animals is sick," said this feeder; whereupon he called a veterinarian. The doctor prescribed, but the hogs refused to partake of the corn. Finally Mr. Kiddle was found. He smiled when he was told of the serious condition of his hogs. Going to the pen he emptied a bushel of wheat into the trough, and the hogs ate voraciously; they felt quite at home. But the Illinois farmer who offered the repudiated corn remarked:

"I'll be gosh-wiggled if I ever see anything like that!"

### TWO COTTAGES BURNED AND FIREMAN INJURED.

Two cottages, located at the corner of Gadsden and Yarragona streets, were completely destroyed by fire yesterday at noon, and it required hard work upon the part of the firemen to keep the flames from spreading, owing to the high wind that prevailed at the time.

The cottages were both occupied by colored people, and for a short time it was feared that the flames would spread to the oil tanks of the Standard Oil Company. Just across the street.

Firemen Stearns was badly injured about the head, a piece of timber from the burning building falling upon him.

### SHERIFF CAPTURES A BADLY WANTED NEGRO.

Sheriff Van Pelt yesterday captured and locked up in jail Will Wright, alias Will Jones, colored, who has been at large for some months. He is wanted in Birmingham on a serious charge, and in addition it is alleged that he is the party who robbed the home of A. Zelias a few weeks ago.

The negro was found in a house just north of the union depot, and captured before he had an opportunity of escape.

### Can't Find Count.

General Kuroki's Headquarters in the Field, April 4.—Via Fusan, April 5.—The Japanese army has been making a fruitless search for information as to the fate of Count Scheptzky, a captain in the Austrian army, and the military attaché of that government with the Russian army in Manchuria. Count Scheptzky has been missing since the battle of Mukden.

### Destroyer Launched.

Tokio, April 5.—The torpedo boat destroyer Arare was successfully launched at Kure to-day.

## EPIDEMIC OF MENINGITIS

HAS CAUSED UNEASINESS IN  
NEW YORK AND EXTRA PRE-  
CAUTIONS ARE BEING  
TAKEN.

By Associated Press.

New York, April 5.—Circulars to the number of 5,000 have been ordered by the health department to be served on all physicians and institutions in New York, ordering reports made of every case of cerebro spinal meningitis. This must be done by the doctors and hospital authorities under the penalty prescribed in the sanitary code and marks a drastic step by the health board in combating the disease which has caused 798 deaths in Greater New York since January 1. Under the new policy each case will be disinfected and if need be isolated.

Although little progress has been made by the commission of medical men which has for some days been investigating the disease, many answers from prominent hospital physicians and specialists all over the world have been received in response to the investigations sent out. As yet no one has been able to reveal the identity of the meningitis germ.

The second discovery is that all the ordinary animals used in laboratory work are immune to the meningitis germs. Guinea pigs and rabbits for instance show no bad effects when they are inoculated. This is true of many other animals and the commission is at a loss as to how an antitoxine can be procured. Thus far, the only animals which have been successfully inoculated are mice, which are too small for practical use in supplying germs.

He Did Not Talk.

By Associated Press.

New York, April 5.—A dispatch from the Herald's correspondent at Paris denies the authenticity of an interview with Ambassador Robert S. McCormick, cabled the Herald yesterday from Paris. The dispatch in question quoted the ambassador as having discussed the way sentiment in Russia, but it now appears, the correspondent explains, that the ambassador's name was used without warrant.

### Meyer Goes to St. Petersburg.

Paris, April 5.—Ambassador Meyer left here to-day for St. Petersburg. Before his departure, Mr. Meyer met Foreign Minister Delcasse by appointment at the foreign office. The details of their conversation, naturally, have not been disclosed, but there is the best reason to believe that Mr. Meyer's taking up his duties at St. Petersburg led to a general exchange between him and M. Delcasse relative to the existing political situation and the prospects.

### MOVEMENTS IN CHINA CONTAIN NOTHING UNUSUAL.

By Associated Press.

Washington, April 5.—Russia has been informed by the United States that so far as the American minister at Peking, Mr. Conger, has been able to find out, the reported anti-foreign movements in China are not unusual in extent.

### CONVICTED NEGRO CONFESSES HIS CRIME.

By Associated Press.

Raleigh, N. C., April 5.—Walter Partridge, the negro sentenced to hang at Fayetteville to-morrow, has confessed that he is guilty of criminally assaulting Mrs. Lillie Hales last January, and that the letters purporting to be from a witness that another negro was guilty were forged by him.

After Doctors Have Acknowledged  
Their Failure, We say G. F. P.

Money Back if It Doesn't.

It's a pretty hard matter in these days to make a sick despairing woman believe that there is really a remedy which will positively cure those diseases and weaknesses peculiar to the sex. She has probably "doctored" until purse and patience are both exhausted—has tried first one reputed remedy after another—but always with the same result—failure—and if you are of these, we address you in sympathetic confidence.

## MR. CARNEGIE MAKES SPEECH

SAYS CARNEGIE INSTITUTE WILL  
CO-OPERATE WITH ALL OTHER  
INSTITUTIONS.

By Associated Press.

New York, April 4.—At a dinner given to Robert S. Woodward, the new president of the Carnegie Institute, Washington, by his former colleagues of Columbia University, Andrew Carnegie made a brief speech in which he said:

"The charter of the Carnegie Institute pledges it to a broader scope of learning than any other seat of learning in the world.

"Its policy will be to co-operate with all other institutions in the cause of education."

## R. R. PRESIDENT IS ARRESTED

IS CHARGED WITH LARCENY OF  
\$24,000 IN CONNECTION WITH  
HANDLING OF ESTATE.

By Associated Press.

New York, April 5.—De Witt Smith, president of a railroad construction company has been arrested by an attaché of the district attorney's office on a warrant charging grand larceny. A large sum is said to be involved.

The complaint against Smith was sworn to by Thomas Stokes, who charged the prisoner with misappropriating funds of the Stokes estate. The specific sum mentioned in the complaint was \$24,000, but it was said that an accounting was to be asked for nearly \$100,000.

Issuance of the warrant was the result of an hour's consultation between counsel for the Stokes and Magistrate Corbin. Definite information however, was refused by all the parties in the case and great secrecy surrounded the arrest.

### Automobile Victim.

London, April 5.—Private telegram from Monte Carlo says that Frank Stevens, one of the two Americans injured in an automobile accident near Monte Carlo, April 3, is dead. Stevens's companion, Louis Hay, who was hurt at the same time, is making progress towards recovery.

### The First English Regatta.

T. Doggett, the comedian, has been regarded as the founder of aquatic sports in England, since he first instituted, in 1716, annual prizes for rowing, and these rowing matches have been continued until the present day. But in the winter of 1774 Lord Lyttelton and the Savoir Vivre club determined to hold in the following year a "regatta" which should rival any ever held at Venice.

This was arranged for June 23, 1775, and on that day the whole river from London bridge to the Ship Tavern at Millbank was covered with pleasure boats, both sides of the water assuming the appearance of a splendid fair. Two races were rowed, and at the conclusion of the sport the invited guests proceeded to the rotunda at Ranelagh, where supper was served at 10 o'clock, after which a ball was given in the Temple of Neptune, a temporary structure erected near the rotunda, the company including the Dukes of Gloucester and Cambridge, the lord mayor and several ambassadors.

### Finnan Haddies.

"The great American public is often bamboozled in buying finnan haddies," remarked a man in the fish business. "When you buy finnan haddies now, days you may get a finnan haddie, which is a smoked haddock, or you may not. You may get a smoked cod fish instead, but you will pay the real finnan haddie price for it just the same."

"The haddock is a fish of the cod family and resembles the cod very much. But the haddock has a black lateral line, while that of the cod is white, and if you will only look for the color of these lines, which is not changed in the smoking, you can tell readily enough whether you are getting what you want or something 'just as good.' For myself, when I buy finnan haddie I want finnan haddie. It may be no better than finnan cod, but I like to think I am getting what I want."

### Disraeli and Carlyle.

No incident in Disraeli's career is more pleasant than his offer of a pension and a G. C. B. to Carlyle. A friend of Sir William Fraser walked with Carlyle for two hours on the day on which Disraeli's letter arrived. Carlyle described the letter being brought to him by a treasury messenger, the large black seal, his wonder as to what the official envelope could contain and his great surprise on reading the offer, conveyed in language of consummate tact and delicacy. Carlyle said: "The letter of Disraeli was flattering, generous and magnanimous. His overlooking all that I have said and done against him was great."

He added: "The accurate perception of merit in others is one of the highest characteristics of a fine intellect. I should not have given Disraeli credit for possessing it had it not been brought home so directly to me." He repeated the words "generous" and "magnanimous" several times. Disraeli's letter, by the way, though it entirely deserves the praises above quoted for its tact and delicacy, is by no means impeccable in grammar, for it contains within a dozen lines two instances of the hanging "and which."
